INTRODUCTION

English is one language that most people all over the world choose to speak or learn to speak, beside their own mother tongue. It is possible to speak English any which way and get your idea or message across to a listener. However, to speak correctly and to sound pleasant, the knowledge of grammar is extremely important. In other words, successful communication is only possible through correct usage of grammar. As someone has rightly said, grammar is the language that makes it possible for us to talk about language. Knowledge of grammar helps us to put together words in a logical sequence to form complete sentences that make perfect sense. Therefore, it is not really wrong to associate grammar with correctness and identification of errors. Grammar is actually meant to help us speak correctly as you will realize while going through the topics in this book.

Prose applies in writing to any literary work accompanied by a basic grammatical form (terms and phrases arranged in sentences and paragraphs). It stands out from poetic works that adopt a metrical form (lines and stanzas). Prose generally means a language which follows the natural patterns found in everyday speech. Formally, its greater dependence on at least one more parameter, the line, makes poetry recognizable. Poetry is a form of literature which is focused on word and rhythm's interplay. It also employs rhyme and meter (a series of laws in each line regulating the number and arrangement of syllables). Words are strung together in poetry to form sounds, images and ideas which may be too complex or conceptual to describe directly.

Communication skills are the abilities that you use when you send and receive various kinds of information. Communication skills include listening, communicating, perception, and empathy. It is also important to consider the variations between how to connect through face-to-face encounters, telephone calls and digital communications such as email and social media.

This book, *Compulsory English*, is written keeping the distance learning student in mind. It is presented in a user-friendly format using a clear, lucid language. Each unit contains an Introduction and a list of Objectives to prepare the student for what to expect in the text. At the end of each unit are a Summary and a list of Key Words, to aid in recollection of concepts learnt. All units contain Self Assessment Questions and Exercises, and strategically placed Check Your Progress questions so the student can keep track of what has been discussed.
