CORE COURSE
SEMESTER IV
EC-4003
RESEARCH PROJECT
(This course will have *FOUR* credits)
(Only for Internal Students)

PREAMBLE:

Students who complete their post-graduation in Economics are mentally equipped to pursue research in the same discipline. It is generally accepted that research is nothing but extension and application of knowledge in a certain specialized field. Therefore regular students who do their post-graduation, as internal students will be given an opportunity to get exposed to a few elements of social research and also they are expected to complete a small research project under the expert guidance and supervision, Elementary knowledge of research methodology shall consolidate and deepen their understanding of various branches of Economics. Preparing a small dissertation is intended to train them in scientific thinking and art of systematic presentation. It is essentially a job-oriented exercise to enable them to take up the exciting field of social and economic research.

Part I: Internal IV Semester students shall submit a dissertation of minimum 8000 words & maximum 10,000 words in three copies to the Head of the Department on or before 30th April. The dissertation shall be prepared under the guidance of an internal postgraduate recognized teacher.

Part II: An internal supervisor shall assess each dissertation for out of 50 marks, based on the methodology, analysis, contents and quality of the dissertation.

Part III: A viva voce examination of each candidate shall be held where he/she will have to make a presentation of the dissertation and defend the research. A panel of two referees shall be formed out of whom one shall be an internal examiner.

The viva voce shall carry 50 marks. Internal & external examiners shall give out of 25 marks each. The copies of dissertation and the record of the viva voce examination shall be maintained by the centre for two more academic years for inspection. The Marks obtained for project work shall be included in the statement of marks of all the regular internal students.

Scale of Remuneration will be as per the University Guidelines.
External examiner will be appointed by the University.

S.Y.B.B.A.(C.A.) Semester – IV

Course Code: CA- 405

Subject: Project

Project Guidelines

DSE: (405) Project

Total Credits: 4

Teaching Scheme

- Project: 4 hours/week
- Batch Size: 10 Projects

Workload:

1. One project guide to be assigned to 10 Projects.
2. 4 hours /week to be allotted for 10 Projects.

Guidelines:

- Students should work in a team of maximum 2 students.
- Students can choose a project topic without any restriction on technology or domain.
- The student group will work independently throughout the project work including: problem identification, information searching, literature study, design and analysis, implementation, testing, and the final reporting.
- Project guide must conduct project presentations (minimum 4) to monitor the progress of the project groups.
- At the end of the project, the group should prepare a report which should conform to international academic standards. The report should follow the style in academic journals and books, with clear elements such as: abstract, background, aim, design and implementation, testing, conclusion and full references, Tables and figures should be numbered and referenced to in the report.
- The final project presentation with demonstration (UE) will be evaluated by the project guide (appointed by the college) and one external examiner (appointed by the University).

Evaluation guidelines:

IA (30 marks)			UE (70 marks)		
First presentation	Second presentation	Documentation	Project Logic/Presentation	Documentation	Viva
10	10	10	40	10	20

Prof. SONALI ABHANG

ACKNOWLEDGEMENT:

The completion of any project brings with it a sense of satisfaction, but it never completes without thanking those people who made it possible and whose constant support has crowned our efforts with success

On this happy moment of completion of my project work as a part of TY B.B.A. (CA) with great pleasure presents the report of the project work. Project was assigned to us by Sharadchandra Pawar Arts and Commerce College, Dudulgaon, Alandi as per rules of Savitribai Phule Pune University

I would like to convey our sincere gratitude towards the people who have devoted their time and ideas in the making of the project I would like to thank Head of the Department and our project guide Prof. Shahuraj D. Yevate for their co-operation and extra time provided to us for doing this project.

I with great pleasure present the report of the project work assigned for "Online Boat Reservation System", and take this opportunity to express my gratitude to all concerned

I extend my gratitude towards professors who have been a constant source of motivation, encouragement, interest and guidance that has gone a long way in helping the completion of work

Yours sincerely,
ASHWINI WADJE
RUTUJA DHAGEKAR

Introduction:

A boat reservation system is a software solution that allows customers to book their reservations or appointments online via a company's website or app instead of over the phone or in person. An automated online booking system allows a customer to do all the work for you - they are served up a selection of free spaces, they choose a date and time that best suits them, then the key in all relevant information.

Reservation is a system of affirmative action in India that provides historically disadvantaged groups representation in education, employment, government schemes, scholarships and politics. Based on provisions in the Indian Constitution, it allows the Union Government and the States and Territories of India to set reserved quotas or seats, at particular percentage in Education Admissions, Employments, Political Bodys, Promotions, etc, for "socially and educationally backward citizens." A boat reservation system is a software solution that allows customers to book their reservations online via a company's website or app instead of over the phone or in person.

CHAPTER 1

INTRODUCTION

Job is always an important part of our life. It provides us more than basic needs like food and shelter. A job can give us confidence, self-respect & social status which make us feel the part of society. There are limited job opportunities in society and very little communication between the people to get to know of an opportunity. Previously, one would get to know about the job opportunity with advertising and he or she would submit their resume and it would take forever to set an interview. We are developing a job portal that makes the resume submission, job choosing, and interview easy for both the parties.

This task will assist the client in keeping the data on the web, so the entrance of information turns out to be simple. The activity entrance will give different capacities, for example, dealing with the opportunities, putting away candidate information, keep the meeting time for the candidate and will assist with recruiting the competitors. The framework won't expel the current framework however will computerize a large portion of the parts which are engaged with the manual procedure. The framework will likewise assist the clients with modifying the information required by them. The importance of the situation framework A large number of candidates are depending on the situation cell. Yet, the candidates are confronting such a significant number of issues. This task is an endeavour to limit the issues of a candidate to get the right line of work. If we can make it an online automated and portable alarm process it will be so quick and helpful for the applicants. Far from upsetting issues, in any case, innovations have transcendently improved life and are impressively simpler for generally people, thus it must be reasoned that they ought to be invited.

ABSTRACT

The Online Food Ordering System's main purpose is to maintain track of information such as Item Category, Food, Delivery Address, Order, and Shopping Cart. It keeps track of information about the Item Category, the Customer, the Shopping Cart, and the Item Category. Only the administrator gets access to the project because it is totally built at the administrative level. The project's purpose is to develop software that will cut down on the time spent manually managing Item Category, Food, Customer, and Delivery Address. It saves the Delivery Address, Order, and Shopping Cart information.

1. Introduction

Motivation :

My motivation for creating this website works in the fast food industry, and I dislike waiting in lines or having to call ahead to place an order, especially during peak lunch or dinner hours. I understanding how strong and dynamic they are when it comes to web design and application development. Because I found them to be highly beneficial when working on the technologies.

PROBLEM STATEMENT :

The online food ordering system sets up a food menu online and customers can easily place the order as per they like. Also, the online customers can easily track their orders management maintains customer's database, and improve food delivery service. The payment can be made online or cash or pay-on-delivery system. For more secured ordering separate accounts are maintained for each user by providing them an Id and a password.
